

The European Research Council (ERC) Information Event for Female Researchers

The European Research Council (ERC) supports innovative frontier research in Europe through open competition. The sole criterion for selection is scientific excellence both of the project and of the Principal Investigator. The ERC's funding schemes cover all scientific fields across all established disciplinary boundaries. In particular, interdisciplinary or pioneering proposals addressing emerging fields and introducing unconventional ("high risk – high gain") approaches are encouraged. The ERC is part of Horizon 2020, the European Union's Framework Programme for Research and Innovation.

The event addresses all female researchers (doctoral students about to complete their PhD, postdocs, (junior) professors) who are interested in applying for an ERC grant in the future.

Date: 24 April 2017, 1:00–3:00 pm

Location: TU Berlin, EU Office, Fraunhofer Str. 33-36, room FH 604

Organizer: EU Office & IPODI Office, TU Berlin

Registration: Please send an e-mail with the subject line 'ERC Information Event for Female Researchers' to events@eu-buero.tu-berlin.de by 10 April 2017

Note: There will be an information event on the ERC Advanced Grants funding scheme on the same day, 4:00–6:00 pm (in German); further information: http://www.forschung.tu-berlin.de/eu_buero/menue/veranstaltungen/

Agenda

- | | |
|---------|---------------------------------------------------------------------------------------------------------------|
| 1:00 pm | Welcome Address
Dr. Silke Köster-Riemann, EU Office of the TU Berlin |
| 1:10 pm | The European Research Council (ERC) – An Overview
Sarah Raphael, NKS ERC/KoWi |
| 2:00 pm | What Does a Successful ERC Application Look Like?
Prof. Dr. Sonja Entringer, Charité, ERC Starting Grantee |
| 2:30 pm | The ERC Evaluation Process
Prof. Dr. Hans-Liudger Dienes, TU Berlin, Member of the ERC Evaluation Panel |
