## The International Postdoc Initiative – Call for Applications –

### IPODI

The International Postdoc Initiative (IPODI) of the Technische Universität Berlin aims to increase the number of women in leadership positions in academia. The program addresses excellent female researchers regardless of their nationality or age and is open to applications from all fields of research represented at TU Berlin. Researchers returning from periods of mobility between sectors or non-academic mobility (e.g. after parental leave) are especially encouraged to apply. From 2013 to 2018, IPODI was co-funded by the European Commission. Due to its great success, TU Berlin decided to sponsor three further funding periods.

For further information visit [www.ipodi.tu-berlin.de](http://www.ipodi.tu-berlin.de)

### What we offer

- four two-year research fellowships at TU Berlin with a competitive salary according to salary group E 13 of TVL, including social security and health insurance as well as pension coverage
- a contribution of €10,000 to the individual research budget
- personal mentoring by an experienced researcher at TU Berlin
- excellent research conditions at TU Berlin
- comprehensive management and career development training
- the numerous benefits of living in one of Europe's most vibrant capital cities with a world-class research environment

### Who can apply

- Applicants must have completed their PhD but may have no more than ten years of research experience after obtaining their doctoral degree. An extension of up to three years is possible (e.g., due to care responsibilities).
- Applicants may not have resided or carried out their main activity in Germany for more than 12 months in the three years prior to the call deadline.
- The research proposal has to fit into one of the fields of research represented at TU Berlin.
- The research proposal has to be supported by a professor of TU Berlin.
- The application must be submitted in complete form by the application deadline.

### Technische Universität Berlin

*With its 40 institutes, 320 professors and more than 30,000 students, the Technische Universität Berlin is one of the largest and most internationally renowned technical universities in Germany. Located in Germany's capital – in the heart of Europe – its comprehensive academic profile forges a unique*

*link between the natural and technical sciences on the one hand, and the planning, economic and social sciences and humanities on the other. Strong regional, national and international networking with partners in science and industry serve to promote hands-on knowledge and technology transfer.*
